

CPD Quality Assurance Document -BSG Winter Conference 2022

for use with CPD certificate delivered to all dental registered attendees for this day conference

Title of enhanced CPD Event	<i>Innovations in Gerodontology - Translating Research into Practice</i>
Date of activity	01/12/22
Location and format of event	RSA House, London In-person full day conference
Learning content	Presentations (7) Interactive Q&A, Poster Displays
CPD Hours	5.0
Dental professional 'Active Participation' required for CPD requirement- -	Attendance at the event -Submission of a completed evaluation form Completion of reflective experience by attendee (space provided on QA document
Attendance confirmation	Via controlled electronic scanned registration on day of event, supplemented by sign- in sheets
Evidence of enhanced CPD	Electronic enhanced CPD certificate , in line with GDC requirements

<p>Aims To give an update to clinicians and practitioners on the latest research in some key areas of Gerodontology</p> <p>Objectives:</p> <p>By the end of the conference and with further reading the delegate will be aware of :</p> <p>potential educational and workforce strategies to meet the oral health challenges of an older population</p> <p>key findings and implications for treatment decision making with or for people living with dementia</p> <p>3d scanning and printing of dentures in care homes</p> <p>updates from CQC Smiling Matters project</p> <p>minimally invasive dentistry for older adults</p> <p>the current work of the Office of the Chief Dental Officer of England</p> <p>patient experience of wearing dentures</p>	
<p>GDC Development Outcomes Statement</p> <p>This activity fulfills the educational criteria for the Verifiable Continuing Professional Development as required by the General Dental Council Lifelong Learning Scheme.</p> <p>It covers the learning content, aim and objectives of the presentations as listed below :</p>	
Presentations	Speaker(s)

<p>1.Potential educational and workforce strategies to meet the oral health challenges of an increasingly older population in the UK</p> <p>Aims & Objectives</p> <p>To provide an update on the current undergraduate training in Gerodontology in Dental and Dental Hygiene therapy schools in the UK and globally</p> <p>To summarise the methodology and findings of recent research which utilised a mixed methods approach with both a quantitative and qualitative arm carried out as part of my Master in Research degree</p> <p>To discuss possible strategies to meet the oral health challenges of the older adult population in the UK</p> <p>2. The Dental Decisions Study: Key findings and implications for treatment decision making with or for people living with dementia.</p> <p>Aim: To review the key findings of the dental decisions study and the implications of these findings</p> <p>Objectives:</p> <p>To gain an overview of the Dental Decisions Study including qualitative research and co-production methods</p> <p>To explore how dentists describe their approach to dental care for people living with dementia To highlight patient and carer’s experiences of dental treatment decisions in dementia To understand the role of the provisional Dental Decisions Tool in supporting treatment decisions</p>	<p>Dr Georgina Prosser</p> <p>STR in Special Care Dentistry Eastman Dental Hospital</p> <p>Duration: 40 minutes GDC development outcomes B, C</p> <p>Dr Andrew Geddis-Regan, NIHR Doctoral Research Fellow /Honorary Special Care Dentist, Newcastle University</p> <p>Duration: 45 minutes</p> <p>GDC development outcomes A, B, C,</p>

<p>3. 3D Scanning and Printing dentures in care homes, a BSG funded feasibility study</p> <p>Aims:</p> <ol style="list-style-type: none">1. Present the results from the care home feasibility study2. Discuss the research process including grant application with BSG3. Explore the potential future applications for this 3D scanning workflow in Gerodontology <p>Objectives</p> <ol style="list-style-type: none">1. Demonstrate how 3D scanning and denture printing can be used in a care home setting to address the issue of denture loss2. Discuss how future applicants can prepare for a research grant application with BSG 3. Present the 3D scanning and printing workflow and discuss future applications in gerodontology Duration 40 minutes	<p>Dr Daniel Gillway, STR in Special Care Dentistry,Oxford Health NHS FT</p> <p>Duration 40 mins</p> <p>GDC Development outcomes C</p>
<p>4. Smiling Matters: Oral Health in Care Homes. What happened next?</p> <p>Aims : To review the follow up to “smiling matters”</p> <p>Objectives:</p> <p>Delegates will understand the CQC review process of “smiling matters”</p> <p>Delegates will understand the progress made following the publication of “smiling matters”</p> <p>Delegates will be able to consider any new recommendations following the review of “smiling matters”</p>	<p>Mr John Milne, Senior National Dental Advisor, Care Quality Commission</p> <p>Duration: 40 minutes</p> <p>GDC Development outcomes A, B, C, D</p>

<p>5. Minimally invasive dentistry for the older adult: the latest updates</p> <p>Aims: To summarise the modern evidence-based approaches to managing dental caries in the older adult using the minimum intervention oral care (MIOC) delivery framework.</p> <p>Objectives:</p> <ol style="list-style-type: none">1. Describe the MIOC framework and how minimally invasive dentistry (MID) fits into this care pathway2. Outline the more common oral conditions affecting the older adult, that the primary care oral healthcare team will face on a daily basis3. Discuss the primary, secondary and tertiary prevention of dental caries in the older adult	<p>Professor Avijit Banerjee, Professor of Cariology & Operative Dentistry. Honorary Consultant/Clinical Lead in Restorative Dentistry, Kiings College London</p> <p>Duration: 40 minutes</p> <p>GDC Development outcomes C</p>
<p>6. Updates from the OCDO on innovative work for vulnerable older people</p> <p>Aims and Objectives:</p> <p>This talk will give an overview on some of the latest OCDO (England) innovations and projects for older dental patients</p> <p>Increase the awareness of denture loss in both hospital and community residential settings</p> <p>Share data regarding denture loss in community residential settings and denture labelling practices</p> <p>Outline suggestions for ways to minimise denture loss</p> <p>Provide an update with the progression and next stages of the Denture Loss workstream</p>	<p>Mr Jason Wong, MBE Deputy Chief Dental Officer, england</p> <p>Dr Don Jayawardena & Dr Natalie Archer</p> <p>Duration: 40 minutes</p> <p>GDC Development outcomes : C</p>

<p>7 Understanding the experience of wearing dentures: a mixed method qualitative study</p> <p>Aim :To discuss early findings from ‘Living with Removable Partial Dentures.’</p> <p>Objectives:</p> <p>introduce the background to the study.</p> <p>Provide an outline of methods and progress so far.</p> <p>Present findings on the challenges associated with measuring the impact of living with a removable partial denture.</p> <p>Examine early data from the patients’ journeys.</p> <p>To discuss how we can do theory building for dental practice.</p>	<p>Professor Barry Gibson, Professor in Medical Sociology, School of Clinical Dentistry, University of Sheffield</p> <p>Duration: 40 minutes</p> <p>GDC development outcomes A,C</p>
<p>Presentation content quality checks and assurance</p>	<p>Content and presentations have been discussed by BSG President,with the support of the committee members</p>
<p>How does the presentation content relate to the GDC development outcomes :</p> <p>A -Effective communication within and without the dental team</p> <p>B-Effective management of self and effective management of others or effective work with others in the dental team, in the interests of patients providing constructive leadership where appropriate.</p> <p>C Maintenance and development of knowledge within the fields of dental public health, service delivery, and dental clinical care in the context of the older vulnerable person</p> <p>D Maintenance of attitudes and behaviors promoting professionalism and the confidence of patients in the dental team</p>
