

*Jayne Woodside is Professor of Human Nutrition within the Centre for Public Health and the Institute for Global Food Security at Queen's University Belfast. She specialises in the conduct of human nutrition intervention studies with whole foods and whole diets examining clinically relevant endpoints and in interventions to promote long-term dietary change. She has published widely in the nutrition field (>220 original papers) and has current funding from the UK Prevention Research Partnership, UKRI (MRC and BBSRC), NIHR, EU and the Northern Ireland Research and Development Office.*
